

Churchdown Community Orchard

Planning began December 2003

Notes

Apples and perry pears are Gloucestershire varieties. (Royal Turk found in Churchdown at Miss Holford's 'Brookfield', Brookfield Road).

All apple trees are on M25 (vigorous) rootstock unless indicated otherwise.

MM106 rootstock (semi-vigorous).

Perry pears are on *Pyrus communis* (very vigorous) rootstock.

Plum is on its own rootstock.

Most apples are dessert/multi-purpose. Royal Turk and Taynton Codlin are especially good cookers.

NATURE RESERVE

This plan and other information on the Orchard and work of the Gloucestershire Orchard Trust is available from the Parish Council Office.
